WARRANT

The State of New Hampshire

To the inhabitants of the Town of Plymouth in the County of Grafton in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Music Hall in said Plymouth on Tuesday, the eighth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing. One Selectman for three years. One Selectman for one year.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for same.
3. To see what sum of money the town will vote to raise or appropriate in addition to that required by law for the support and maintenance of the Free Public Library.
4. To see what sum of money the town will vote to raise for the repair of highways including town maintenance, State Aid maintenance and Trunk Line maintenance.
5. To see what sum of money the town will vote to raise for State Aid Construction and Federal Aid reconstruction.
6. To see what sum of money the town will vote to raise or appropriate to pay firemen.
7. To see if the town will vote to authorize the Selectmen to borrow money to pay the debts of the town and give notes therefor, countersigned by the Town Treasurer. Said notes to be exempt from taxation.
8. To see what sum of money the town will vote to raise or appropriate for Memorial Day.

9. To choose a Library Trustee for the term of three years and one for the term of two years.
10. To see what sum of money the town will vote to raise or appropriate to pay a local band for open air concerts during the summer of 1927.
11. To see what sum of money the town will vote to raise or appropriate for oiling the streets.
12. To see what action the town will take regarding the renewing of the contract with the Plymouth Electric Light Company for lighting the streets.
13. To see what sum of money the town will vote to raise or appropriate for defraying the expenses of the District Nurse.
14. To see what action the town will take relative to the expenditure of one thousand dollars left by the will of Daniel W. Burrows to erect a drinking fountain in the Town of Plymouth.
15. To choose a Trustee for a term of three years to have care of the Trust Funds.
16. To see what sum of money the town will vote to raise for the construction of a sidewalk from the Baker's River bridge railroad crossing to the Campton line.
17. To see what sum of money the town will vote to raise for sidewalks south of Baker's River bridge.
18. To see what sum of money the town will vote to raise for the care and maintenance of cemeteries.
19. To see what sum of money the town will vote to raise for the control of White Pine Blister rust.

**Forty-Second
ANNUAL REPORT
TOWN SCHOOL DISTRICT**

**WARRANT FOR PLYMOUTH TOWN SCHOOL
DISTRICT ANNUAL MEETING**

State of New Hampshire

GRAFTON, ss.

To the inhabitants of the school district in the town of Plymouth in said county of Grafton, qualified to vote in district affairs:

G R E E T I N G :—

You are hereby notified to meet at Music Hall in said district on Tuesday, the eighth day of March, 1927, at two o'clock in the afternoon to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose a treasurer for the fiscal year beginning July 1, 1927, and ending June 30, 1928.
4. To choose a member of the school board for the ensuing three years.
5. To see what sums of money the district will vote to raise to pay the salaries of the district officers for the ensuing year and to fix the amount of said salaries.
6. To see what alterations the district will vote to make in the estimates of the school board as to the amount of money required for the support of schools and payment of the statutory obligations of the district and to see what further sums of money the district will raise to procure land for school house lots, for building, repairing, and maintaining schoolhouses, outbuildings, fences and grounds connected therewith, for providing suitable furniture, apparatus and conveniences for schools and schoolhouses, and to pay the debts of the district.

7. To see if the district will vote to authorize the school board to borrow money to pay the debts of the district and to give therefor notes of the district countersigned by the district treasurer.
8. To see what sums of money the district will vote to raise to cover the expenses of medical supervision of the schools for the ensuing year.
9. To see what sums of money the district will vote to raise to enable the Supervisory Union of which it is a member to increase the salary of the Superintendent of Schools above the minimum fixed by law, and pay other expenses of superintendence
10. To see if the district will vote to authorize the school board to employ an instructor the major portion of whose time shall be utilized in physical instruction, and to see what sums of money the district will vote to raise to pay the salary of said instructor.

GIVEN UNDER OUR HANDS AND COMMON SEAL this twenty-first day of February, A. D., 1927.

RANDALL A. FLAGG,
J. E. MAYNARD,
WALTER M. FLINT,

School Board of Plymouth.

Plymouth, N. H., February 16, 1927.

We have today examined the foregoing account of Donna P. Greeley, Treasurer of the School District of the Town of Plymouth, for the year ending June 30, 1926, and have found the same correctly cast and properly vouched. At the same time we have burned bonds of the Model School Loan, No.s 123 and 136 to 150 inclusive, amounting to \$3,700.00, and of the New High School Loan, No.s 3 and 4, amounting to \$1,500.00, and coupons of the Model School Loan amounting to \$490.00 and of the New High School Loan amounting to \$900.00.

M. A. BATCHELDER,
W. J. RANDOLPH,
Auditors.

REPORT OF SCHOOL BOARD

The condition and needs of the schools are set forth in detail in the reports of the superintendent, Headmaster, Medical Examiner, and Treasurer and it would seem unnecessary for the School Board to comment on them.

We estimate that the school requirements for the ensuing year as follows.

Principal on bonds	\$ 5,100.00
Interest on bonds	1,075.00
Teachers' salaries	21,000.00
Janitor's salaries	1,525.00
Text books and supplies	3,500.00
New equipment	1,000.00
Fuel	2,500.00
Repairs	1,500.00

Per capita tax	1,116.00
Insurance	600.00
Water, lights and janitor's supplies	650.00
Miscellaneous	2,000.00
Total requirements	\$41,566.00

Estimated receipts to apply on the above requirements

Tuitions	\$6,000.00
Money required by law	9,000.00
Per capita tax	1,116.00
Total	\$16,116.00
Additional school money required	\$25,450.00

We recommend that the sum of \$25,450.00 be raised for the purposes specified in article six of the warrant in addition to the amount required by law and the per capita tax, with authority given to the school board to appropriate the same as above, or otherwise as necessity may require.

Money for Superintendent's excess salary and expenses, and medical inspection should be raised in addition under the respective articles covering these matters, and if it is desired to adapt the high school campus for skating, additional funds for that purpose must be raised.

Respectfully submitted,

RANDALL A. FLAGG,
J. E. MAYNARD,
WALTER M. FLINT,

School Board of Plymouth.

SUPERINTENDENT'S REPORT

School Board of Plymouth,
Gentlemen:

I am pleased to submit my sixth annual report as the superintendent of your schools.

Some comparative statistics will show the development of our system during the last three years.

Total enrollment in the different schools for the last two school years and for the present school year up to the last of February 1927 is presented first.

	1924-25	1925-26	1926-27
Model Kindergarten	16	31	31
Model Grades 1-6	189	208	226
Model Junior High	52	60	53
Total for Model Schools	257	299	310
Rural Schools	171	172	177
High School	201	191	202
Total all Schools	629	662	689
Non-resident pupils	90	109	102
Total Plymouth Children	539	553	587
	Feb. 1926	Feb. 1927	
The total membership of all schools	584	608	

The steady rise in enrollment during the last three years indicates a healthy growth particularly in the village, for the rural schools have grown but slightly.

Plymouth schools are remarkable in the proportion of boys enrolled. Comparative figures follow.

	Feb. 1926	Feb. 1927
Model School, boys	156	171
Model School, girls	130	139
Rural School, boys	82	89
Rural School, girls	90	88
Total boys elementary grades	248	260

Total girls elementary grades	220	227
High School, boys	83	95
High School, girls	108	107
Total boys all schools	321	355
Total girls all schools	328	334

Figures that show the concentration in different grades are suggestive. Last year the Model School second grade had a total of 52 pupils. The fourth grade numbered 34. The Kindergarten enrolled 31. This year Model Grade 1 enrolled 45, Model Grade 3, 49, and Model Grade 5, 42. Our February enrollment in the Kindergarten equals that of last year. This evidently means a large first grade next year. If the tendency of the last three years continues the present quarters will probably be definitely outgrown by the time that the contract with the Normal School expires. Even now they are certainly crowded.

Promotion statistics show growth in success in school life. In 1925-26, 502 pupils were promoted while 41 failed. Thirteen had been in some grade more than two years. In 1926-27, 515 were promoted, 20 failed, and only one had been in any grade more than two years. This progress has been made without lowering our standards, but has been accomplished by attention to individual differences and definite appeal to the live interests of the pupils.

Summaries from the superintendent's monthly reports to the State Board of Education will serve to show the nature of his work.

1925-26 to Feb. 21, 1927		
Days given to supervision	160	85
Days given to office work	18	2
Days given to other duties in the supervisory union	17	17
Days given to duties out- the union	26	12

The days given to supervision were spent in the school rooms with pupils and teachers. The guiding principles have been explained in preceding reports.

This year and last year the conferences with teachers following the visits have been made more useful by definite standards of teaching worked out cooperatively.

More than two thirds of our school days were given to supervision. This proportion is very satisfactory to the present superintendent and quite in keeping with the avowed purpose of the N. H. Supervisory law. One pleasing phase of the work is the contacts which the superintendent realizes increasingly with graduates of Plymouth High School whom he supervises in student teaching.

The regular work of the schools has continued with faithful and generally efficient effort on the part of the teachers. The pupils have made satisfactory progress. In the Model Schools we had practically no turnover in our teaching staff at the end of the school year 1925-1926. Miss Kendall was given leave of absence from the second grade but her place was taken by Miss Ortolf, who was Miss Kendall's assistant last year. Thus we have had the benefits secured by a staff familiar with our methods and purposes. As the standards of teacher training are progressively raised the personnel of the teaching force will improve over the present high level, and advantage will accrue to the pupils of Plymouth.

In the rural schools Waver Lanpher formerly teacher at the Turnpike has taken Mrs. Keniston's position during her leave of absence from the Sargent School. At Baker River Hazel Corson is teaching while Miss Dodge is on leave of absence. Miss Lanpher and Miss Corson are graduates of the Normal School, class of 1926 Verna Greenly replaces Marion Draper at the Turnpike. The Rural Schools are making progress.

You are referred to the headmaster's report for information in regard to the high school. The superintendent wishes to testify to the conscientious and on the whole efficient work of the management and the staff. The morale of the pupils is excellent, and the professional attitude of the teachers is marked.

Dr. Chase in his report has given you a record of his faithful and conscientious work as medical examiner. The services of Mrs. Chase have been as usual invaluable.

Allow me to finish my report with certain recommendations for your consideration.

1. The importance of physical education and high school athletics warrants asking you to consider seriously the desirability of employing an extra high school teacher to devote part of his time to physical education and coaching.

2. Again I ask you to consider inaugurating a plan of rural school improvements that will bring about the thorough modernization of at least one rural schoolhouse each year.

3. A record system like that recently adopted for high school should be provided also for the elementary pupils.

4. There is immediate need of providing more adequate laboratory facilities for the class in biology in the high school.

I bring my report to a close with a very real sense of gratitude to the school board and to the people of Plymouth for the pleasant years I have spent as superintendent of the public schools.

Respectfully submitted,

GUY E. SPEARE,
Superintendent of Schools.

MEDICAL EXAMINER'S REPORT

To the School Board of the Town of Plymouth:

Again I am reporting my work in the schools of our town.

I find by comparing the records of five years ago with the present time, that there is quite an improvement in all the schools of Plymouth. Then we had five hundred scholars as against an even six hundred this year; then we had ninety-two unvaccinated as against fifty-eight at the present time, the most of them being in the kindergarten or first grade, eight of them having an excuse.

This year I have found and reported one hundred seventy-one defects. Some slight ailments like an enlarged thyroid or tonsils, I made a note of on their physical report card for future observation, whether it grew better or worse but did not report them, as in my judgment, no treatment was indicated, and considering we have one hundred more scholars now than then, it shows a decidedly small per cent of the present time suffering from defects or disease.

Of course, new defects and ailments are constantly developing and the younger ones that are coming in bring their ailments with them so that there will always be more or less diseased conditions to look after, but I will say that the parents have taken notice of defects reported, and where it was possible to have them looked after and treated, they have done so.

I find that the teachers and parents have co-operated with me in the work, especially in eradicating the biggest nuisance that we had to contend with, namely lice; and so far as I know now, there are none in any of the schools.

A few years ago when the law for Medical Inspection was passed, some towns in the state did not adopt it, but it worked so well and so much good has been accomplished that I think nearly every town in New Hampshire has taken it up.

In my work much has been accomplished in the care of the eyes. Many have been fitted with glasses

where they were needed and the teachers inform me that they do much better work; also there is a very marked change in the condition of their teeth.

I hope that the work may be continued as it is vitally necessary that the pupils have a good physical make-up to enable them to advance mentally.

Expressing my gratitude to the District Nurse for her assistance in the examination, and to Miss Spaulding for clerical work which was very efficient, I beg to remain

Yours respectfully,
E. C. CHASE,
Medical Examiner.

HEADMASTER'S REPORT ON THE HIGH SCHOOL

To Superintendent G. E. Speare:

Following is the fourth in the series of reports made by the Headmaster and covers the year 1926-27.

Enrollment

Two hundred two different pupils have been registered in the High School this year. Eighty-eight of these were tuition pupils.

Attendance in the high school so far this year has been unusually good. An epidemic of measles in the fall accounted for most of the absenteeism of the year.

Organization

The schedule of the High School had to be changed three times during the first seven weeks of school. This was due to the shifting schedule of the Boston & Maine Railroad. The final winter timetable of the railroad made it necessary to organize the school so as to accommodate the large number of Main Line commuters, who come from stations beginning with Warren. The school's timetable necessitated putting in the assembly exercises and all other extra-curricular

activities early in the morning before the opening of the regular session, second, shortening the recitation periods from fifty to forty-five minutes, reducing the length of the noon hour from seventy-five minutes to thirty, this requiring in the case of most pupils, eating of the noon lunch at school, and finally, the closing of the afternoon session early enough to enable the commuting pupils to meet their train. This adjustment of the schedule of the school to harmonize with the timetable of the railroad has not been for the best interests of the school and for its smooth working.

Prize Speaking

In the sixth annual prize speaking contest held March 29, 1926, the following four pupils distinguished themselves by winning prizes as follows: First Boy's Prize, Mark Worthen, '27; First Girl's Prize, Eunice Baker, '27; Second Boy's Prize, John Clay, '28; Second Girl's Prize, Louise Beede, '27. The Prizes consist of \$30 in gold.

Some Observations About Athletics

If athletics are a detriment to any school, they should be summarily done away with, but inasmuch as educators believe that athletics, well-organized and well-carried on, are a genuine benefit to any school that is able to maintain them, athletic sports have become an important integral part of the modern high school. Going, therefore, upon the assumption that athletics are beneficial, it seems to me they should be recognized as a part of the regular curriculum and put upon the same basis of organization, supervision and control as any scholastic subject such as the standard studies of the classroom; further that the expense of maintaining athletics should be paid for in the same way as the expense of teaching any of the regular classes, that is to say, the expense should be added to the general expense of running the school, and proportional expense would therefore be included in the tuition charge levied upon the various towns who use Plymouth High for the education of their pupils. If the coaching of athletics is not teaching, what is it?

It must be destructive. If destructive, then it should be prohibited, if not so, then, to my mind, it should be recognized on the same basis as any other legitimate school expense and supported by appropriation from the school treasury insofar as its cost is not met by regular box office receipts.

Gifts

The graduating class of 1926 presented to the high school a beautiful bust of Theodore Roosevelt as its valedictory contribution. Former classes have given money. It is hoped a suitable bracket may soon be purchased so that the bust may be displayed in an appropriate part of the building.

By reason of the activities of the High School Girls' Club, money was procured by which the Club generously contributed at Commencement time last year several articles of adornment for the auditorium stage, including two floor lamps, a library table, three boudoir chairs, candlesticks, a table runner, and an art rug.

Pressing Needs

The High School office should be enlarged so that at least a small room for consultation purposes may be provided. This is a very pressing need.

The fitting up of a suitable room for biological science. The present room is wholly inadequate.

A few additional inter-room telephones.

Three or four room clocks. At present four teaching rooms do not have any time piece.

Conclusion

I take pleasure in thanking the Superintendent of Schools for his wise counsel and sympathetic aid, the parents for their co-operation, and the teachers for their devotion to what they conceive their professional calling to be.

Respectfully submitted,

ELBERT E. ORCUTT,

Headmaster.
